

Cell-U-Lite

Cellulite is one of the harder types of fat to lose. You can lose inches and pounds and still suffer from this hard type of fat that creates unsightly dimpled skin.

Many believe that the Cellulite contains toxins from our environment and beauty products such as petrochemicals, pesticides and heavy metals. This would explain the difficulty in getting rid of Cellulite!

The ingredients in this blend, Grapefruit, Lemon and Lemongrass, help support the elimination of fatty deposits while Cypress and Juniper Berry help to detox the fat and other toxins that may be released.

ingredient highlights

- Like many citrus oils, Pink Grapefruit has a unique “fat dissolving” characteristic, and is well known for reducing cellulite. Additionally, the pleasing aroma has laboratory-confirmed appetite reducing effects. Adding a drop of Pink Grapefruit Essential Oil to drinking water gives a refreshing zing that also has wonderful cleansing properties.
- Lemon contains Limonene which is known for its “fat dissolving” powers. It also increases energy, improves digestion, and suppresses appetite.
- Peppermint works wonders when it comes to soothing an upset stomach. It has the ability to give you more energy, stop cravings, and leaves you feeling full longer after a meal.
- Juniper Berry promotes elimination of uric acid, helping to ease pain from gout and arthritic or rheumatic conditions. It is a powerful purifier, assisting with hemorrhoids, menstrual issues, cellulite, lymphatic drainage, and fluid retention.

general uses

TOPICAL

- Apply onto areas of concern and massage in twice per day.

pregnancy & children

- Safe when used as directed.

ingredients

100% Pure, Certified Organic and Wildcrafted oils of Grapefruit, pink; Lemon, Lemongrass, Ginger Root, Cypress, Juniper Berry, and Fractionated Coconut
