

Cold & Flu Relief

Cold & Flu Relief (4-IF,1) is a Purify Med-Square Synergy Blend to assist with the common colds and influenza.

ingredient highlights

- Rosemary was used in the Middle Ages to freshen and purify the air in French hospitals, strewn on the floor to protect against gaol fever in courts of law, and worn by travellers in neck pouches during the plague. It is a strong antiviral oil known to stimulate the immune system, and is therefore exceptional in treating colds and flu.

Rosemary ct. 1,8 cineole is excellent with pulmonary congestion and respiratory conditions such as colds, flu, strep, bronchitis, and sinusitis. Its stimulating and uplifting properties are of added benefit when dealing with asthma or other respiratory issues involving a nervous or emotional component.

- Ravensara is one of the most versatile and indispensable Essential Oils; there is little that it can't do. It is potent, yet safe and gentle. The chemical composition of Ravensara is simple, and without any specific compound that makes its smell. It has antiviral properties that make it great when fighting internal viruses such as the common cold, influenza, measles, mumps, and chicken pox.
- Eucalyptus Radiata is primarily an Essential Oil for the respiratory system. It has good anticatarrhal properties, meaning it's well suited for conditions involving mucus. It is a powerful expectorant and mucolytic, with good ability for fluidification. It is a gentle yet effective Essential Oil for respiratory problems and is more easily tolerated by children than Eucalyptus Globulus.

Eucalyptus Radiata a good immunostimulant, great for use by individuals who are run down and prone to colds, etc. Historically, Eucalyptus has been shown to be useful for elimination of viruses and to support the entire respiratory system. Its high content of 1,8 cineole makes it a good choice for diffusion into a room when someone has a respiratory infection.

- Like its cousin Tea Tree, Niaouli Essential Oil is a gentle yet potent respiratory oil with strong decongestant ability. It is useful with colds, flu, allergies, asthma, bronchitis, sinusitis, sore throat, and whooping cough. Niaouli is excellent when used with Tea Tree as a gargle for sore throat.

pregnancy & children

TOPICAL

- Infant to 3 months - not recommended
- 3 months to 2 years - not recommended
- 2 years to 5 years - safe when used as directed
- 5 years to 10 years - safe when used as directed
- Pregnancy - safe when used as directed
