

Income Opportunity Details

A new Product Consultant's earnings will consist largely of Revenue Sharing Pool bonuses, Personal Retail Sale bonuses, Preferred Wholesale Customer Sale bonuses, and Bulk Order Sale bonuses, and may also include Unilevel Sales Override bonuses and Team Check Match bonuses. A new Product Consultant's income will be closely tied to their own personal sales efforts with minimal compensation based on the sales efforts of others.

If you are considering goDésana as a replacement to a part-time job, your personal sales efforts with just 10 hours a week can result in significant supplemental earnings, often netting you a higher hourly rate than you would likely see at another part-time job.
