

Fungal Relief

soothing blend

Ingredients: Lavender, spike; Niaouli, Macadamia Nut, Fractionated Coconut

Fungal Relief is formulated with Essential Oils that are known to have constituents that assist and support the body with fungal concerns.*

Fungal infections get in through cracks in the nail bed or cuts in the skin. Because toes are often warm and damp, different kinds of fungus, and sometimes yeast, are often found there. Left untreated, such infections could spread to other parts of the body.*

As we age, the potential for fungal infections increases. Those suffering from diabetes, smokers, and those with a weak immune system are also at higher risk. Spending lots of time in the water or previous injury to a nail bed can increase the odds of fungal infection as well.*

Both Lavender spike and Niaouli have excellent anti-fungal and antibacterial properties, making them helpful in both the treatment and prevention of fungal infections.*

suggested usage (10 years & up)

BATH:

- Not appropriate for the bath.*

INHALATION

- Not appropriate for inhalation.*

INTERNAL

- Not to be used internally.*

MISTING

- Not appropriate for misting.*
