Inhaling Essential Oils stimulates an area of the brain called the Limbic System, which governs moods and emotions. The inhalation can trigger varying emotional and physical responses in people, and aphrodisiac Essential Oils have the ability to invoke romantic feelings.

Passion can be a potent aphrodisiac, particularly for the typically self-restrained or emotionally inhibited individual. Each and every Essential Oil in this blend has aphrodisiac properties. It can be used as a perfume/cologne, added to a bath, or diluted for use as a body or room spray.

ingredient highlights

Sandalwood Essential Oil is well known for its meditative and relaxing properties; it slows the breathing and supports deeper concentration and connection; but it also has aphrodisiac properties and is a fragrance most men enjoy. Sandalwood can enhance feelings of connection, calm emotions, and foster self-acceptance which in turn strengthens relationships with others. Sandalwood is similar to a man's natural body scent, and though barely perceptible, it sends out a highly effective erotic signal to the opposite sex.

Rose has been coveted for centuries by the ancient Egyptians, Greeks, and Romans. The very scent of it can be arousing, and it boosts the libido while invoking romantic feelings that are essential for a successful sex life. Rose Essential Oil can reduce symptoms of sexual dysfunction, erectile dysfunction, frigidity, and general disinterest in sexual activity with partners.

Jasmine Essential Oil puts people in the mood for love, while also enhancing libido and feelings of sexual desire. It can assist with problems such as premature ejaculation, frigidity, impotence, and various other sexual disorders. When used as perfume and inhaled, Jasmine can awaken innocence, sweetness and purity. Through the limbic region of the brain, Jasmine influences the emotional part of us. No other oil is able to so intensely change our mood.

Neroli not only promotes arousal and increases the libido, but it can also help cure a loss of interest in sex, frigidity, impotence, and erectile dysfunction. Many Victorian brides wore a sprig of orange blossom in their head dress and carried orange blossoms in their bridal bouquets in an attempt to calm nerves and stimulate romance on the wedding night.

ingredient highlights (cont'd)

Patchouli is one of the most recognizable fragrances in the world. It is recognized as a powerful aphrodisiac, and is found in many perfumes. Its earthy fragrance helps with frigidity, nervous exhaustion, and stress related conditions. Equally loved by men and women, it is powerful when layered with Rose and Sandalwood.

Rosewood, also known as Bois de Rose, is useful for lifting depression, fighting frigidity and impotence, and for skin rejuvenation. Rosewood creates peace and security, and can be used in chakra balancing. Rosewood Essential Oil should be used at the first sign of a headache as it quiets the mind and uplifts the mood.

suggested usage

Bath

- Add 10 to 15 drops of Passion to ½ to 1 cup of Pink Himalayan or Dead Sea bath salts, and add to bath water. Soak 10 to 20 minutes for best results. For intensive therapy, soak once a day; if you can't do a full bath you can do a foot soak instead.
- For a foot bath, add 8 to 12 drops of Primal to ½ cup of Pink Himalayan or Dead Sea bath salts, and soak feet 10 to 20 minutes for best results.
- Soaking in the Passion bath warms and energizes the Heart Chakra, creating a feeling of being loved and cared for.

Misting Spray

- Mix 12 to 15 drops in a 4 ounce cobalt blue spray bottle of distilled water. Mist around the heart area, front and back. Shake well before use.
- Mix 6 to 8 drops in a 2 ounce cobalt spray bottle to carry with you; mist generously whenever you need emotional support and to give yourself permission to give and receive love. Shake well before use.

Topical

- Apply 1 to 3 drops of Passion to the pulse points on the wrists. A powerful way to affect your Heart Chakra as the meridian for the heart runs through the wrists.
- Apply 1 to 2 drops to the Heart Chakra area between the breasts in the center of the chest, and on the spine at the upper back directly across from the heart application point in front. When applied to the chakra area, you are feeding vibrational frequency into the chakra, providing warmth, nutrients, and strength.
