ingredient highlights

Spikenard was used by Roman perfumers, and has a well-known Biblical history, having been mentioned in the Song Of Solomon and with Mary Magsalene who used it to anoint Christ's feet before the Last Supper. Regarded as a calming, sedative, stabilizing oil, Spikenard's action regulates the nervous system and the heart. With its warm and earthy aroma, it also helps soothe the deepest forms of anxiety, nervous indigestion, migraine, stress, and overall tension. It was also used as an aphrodisiac in treating impotence. In combination with other aphrodisiacs, this oil can increase sensuality and heighten an awareness of touch.

Rose Geranium is one of the best Essential Oils for easing anxiety and depression. It is wonderfully balancing and uplifting. Rose Geranium has a balancing effect on the nervous system and relieves depression and anxiety, while lifting the spirits and making the world an easier place to live in. It has a balancing effect on the adrenal cortex and is great for relieving stress.

Lavender has been known throughout history as an herb of love. For hundreds of years, women have scented their clothing, linens, and trousseaus with sprigs of Lavender. It has been proven through scientific studies that the scent of Lavender is a powerful aphrodisiac that increases blood flow and is irresistible to many men. Lavender is relaxing yet stimulating, and works both physically and psychologically.

Vetiver Essential Oil stimulates the limbic system and acts as a natural aphrodisiac that increases libido and sparks sexual desire. A stress-free mind is a vital requirement for sexual health, and sexual disorders like frigidity, impotence, and lack of libido are often vested with the limbic system of the brain. Vetiver stimulates the limbic system, pacifies the mind, and serves as an effective natural remedy for such health disorders.

Neroli not only promotes arousal and increases the libido, but it can also help cure a loss of interest in sex, frigidity, impotence, and erectile dysfunction. Neroli Essential Oil has long been used in weddings because of both its aphrodisiac properties and its ability to calm a bride on her big day. Many Victorian brides wore a sprig of orange blossom in their head dress and carried orange blossoms in their bridal bouquets in an attempt to calm nerves and stimulate romance on the wedding night.
