

Myrrh & Sandalwood

deodorant 2.5oz

Sweating is a natural and essential bodily function that helps regulate temperature and eliminate toxins. While perspiration itself is odorless, the bacteria on our skin break down the sweat, leading to body odor. Many people seek solutions to manage this odor without resorting to harsh chemicals and synthetic fragrances found in conventional deodorants.*

Natural deodorants are formulated with ingredients derived from nature, which work in harmony with your body. Key ingredients like arrowroot powder and various clays absorb moisture and neutralize odor, while essential oils provide pleasant scents and additional antibacterial properties. For instance, ingredients such as myrrh and sandalwood essential oils not only impart a soothing aroma but also possess natural antimicrobial properties that help keep odor-causing bacteria at bay.*

Stay naturally fresh and confident all day with our Myrrh & Sandalwood Deodorant. This unique blend combines the purifying properties of clay with the warm, soothing scents of myrrh and sandalwood, offering effective odor protection and a touch of luxury.*

ingredient highlights

French Green Clay: A powerful ingredient in natural deodorants, known for its exceptional detoxifying and absorbent properties. Mined from ancient volcanic ash deposits in France, this mineral-rich clay effectively absorbs moisture and impurities, helping to keep you dry and fresh throughout the day. Its natural antibacterial qualities combat odor-causing bacteria, while its gentle nature makes it suitable for sensitive skin.*

Myrrh: A valuable addition to natural deodorants, celebrated for its antibacterial and anti-inflammatory properties. Extracted from the resin of the Commiphora tree, myrrh oil helps combat odor-causing bacteria, ensuring long-lasting freshness. Its soothing qualities make it ideal for sensitive skin, reducing irritation and promoting healing. Additionally, myrrh's warm, earthy aroma adds a rich, grounding scent to deodorant formulations, enhancing your daily routine with a touch of ancient wellness.*

Sandalwood: A prized ingredient in natural deodorants, Sandalwood is known for its soothing, anti-inflammatory properties and rich, woody aroma. This essential oil not only imparts a luxurious scent that lingers throughout the day but also offers antibacterial benefits, helping to combat odor-causing bacteria naturally. Its gentle nature makes it suitable for sensitive skin, ensuring a calm and irritation-free experience.*

Arrowroot Powder: A key ingredient in natural deodorants, prized for its ability to absorb moisture and keep you feeling fresh. Derived from the roots of the arrowroot plant, this fine, silky powder helps to naturally combat wetness without clogging pores, allowing your skin to breathe. Its gentle, non-irritating properties make it ideal for sensitive skin, while its effectiveness in maintaining dryness ensures you stay comfortable and confident all day.*

uses

- For external use only. Apply to underarms only; re-apply as needed throughout the day.*

Fresh

bentonite clay tooth cleansing powder 2oz

Fresh mouth. Clean ingredients. Now you can have healthy, clean teeth and gums without artificial flavorings, artificial sweeteners, fluoride, carrageenan, triclosan, and sodium lauryl sulfate. Fresh Tooth Powder refreshes and cleans with powerful calcium bentonite clay, pink Himalayan salt, pure essential oils, and healing herbs.*

ingredient highlights

Bentonite Clay: Montmorillonite (Bentonite) Clay is a form of volcanic ash that is antibacterial and anti-inflammatory. It is a rich source of trace minerals like calcium, iron, copper, and zinc. When Bentonite Clay gets wet, it expands, changes its electrical charge to a negative charge, and becomes like a big sponge that can absorb toxins. It also has an alkalinizing effect that is beneficial for the health of teeth and gums.*

Pink Himalayan Salt: This all-natural salt is estimated to contain as many as 84 trace minerals that are naturally anti-inflammatory and antibacterial. Brushing with Pink Himalayan Salt can assist in removing bacteria from the teeth and gums, which helps in preventing the buildup of plaque and tartar.*

Peppermint Essential Oil: This tried-and-true remedy has been used all around the world for more than a thousand years. It kills bacteria and fungus, both of which can cause infections in the mouth or lead to the development of cavities. Peppermint oil is especially effective against anaerobic bacteria, which love a low-oxygen environment such as the spaces between teeth or below the gum line where cavities can form and thrive. Studies have shown that peppermint oil is more effective in reducing cavities than many of the active chemical ingredients used in commercial mouthwashes.*

Clove Essential Oil: Used in traditional Indian and Chinese medicine for centuries to relieve tooth pain, modern clinical research has indicated that clove oil can relieve tooth pain and bad breath, as well as help reduce gum disease. Clove oil also has the natural ability to restrict the development of bacteria and can help fight mouth and throat infections.*

Spearmint Essential Oil: An excellent antifungal and breath freshener. Studies show that using spearmint and/or peppermint oil for oral hygiene can help delay the process of gum disease and gingivitis. It is believed by some to have the ability to assist with toothaches as well.*

USES

- Wet toothbrush. Dip in powder and brush as you normally would. Rinse.*

Sweet Orange

citrus sinensis 10ml

Sweet Orange is one of the most valuable essences to use for digestive complaints including nausea and vomiting, especially of biliary-type; constipation, diarrhea, loss of appetite, and possibly weight loss through its effect on fats.*

Sweet Orange also has an affinity for the lymphatic system, bringing it into balance, which explains its success as a natural diuretic.*

Sweet Orange is excellent for adding a bright, citrus flavor to a variety of dishes from desserts to sauces & marinades. It can be used in baked goods or as a refreshing addition to beverages.*

uses

aromatic

- **Diffusion:** Diffuse 10 to 15 drops in 5 minute intervals throughout the day to impart an energizing, uplifting aroma.*
- **Inhalation:** Place 1 to 2 drops on a tissue, cotton ball, or in the palms of the hands and inhale as desired.*
- **Misting:** Mix 15 to 20 drops in 4 ounces of distilled water in an amber glass or PET plastic spray bottle. Shake well and spray for a refreshing aroma.*

bath

- **Bath:** Add 8 to 10 drops to ½ cup Pink Himalayan or Dead Sea bath salts and mix into warm bath water. While the Sweet Orange fragrance is de-stressing you, the salt soak will relieve tension and muscle aches.*

internal

- **Tea:** Two drops of Sweet Orange essential oil in a teaspoon of honey stirred into a cup of tea taken before breakfast is a good way to start the day and may be especially helpful for those who are concerned with obesity and water retention.*

topical

- **Cellulite:** Sweet Orange essential oil is solvent and will often be included in blends to assist with cellulite. It can be used with a clay body mask for this purpose very effectively.*

topical dilution guidelines

- **Healthy individuals ages 10 and over:** Dilute to 10% (60 drops per 1 ounce of carrier oil).*
- **Children 3 to 5 years:** Dilute 3 drops in 10 ml of carrier oil.*
- **Children 5 to 10 years:** Dilute 6 drops in 10 ml of carrier oil.*
- **Pregnancy:** Safe when used as directed starting in the 2nd trimester at 3% dilution (15 drops/1 ounce).*

goDesana

Product Information Page

application methods

Aromatic • Bath • Internal • Topical

safety group: 2

Generally regarded as safe when properly diluted and used as directed with children over the age of 3 years, and while pregnant starting in the 2nd trimester.

properties

Organic

Producing Organ: Peel

Extraction: Cold Expression

Country of Origin: USA

Main Chemical Constituents:

Monoterpenes, mainly limonene

Therapeutic Properties: *Anti-depressive, anti-inflammatory, antiseptic, anti-depressive, bactericide, antipyretic, carminative, choleric, digestive, fungicide, hypotensive, sedative, stimulates digestive and lymphatic systems, protects the gastric mucus of the stomach, tonifying*

responsible cautions

- Not generally toxic and has no particular contraindications. It is non-irritant and non-sensitizing; however, for those with particularly sensitive skin, you should be cautious as the limonene content could cause a mild dermatitis.
- Though most citrus have some degree of photo-toxicity, Sweet Orange is relatively safe in that respect. It is still probably a good idea to limit the exposure of skin to the sun when applying this oil.
- Keep out of reach of children and pets.
- If you are pregnant, nursing, or under a doctor's care, consult your healthcare provider prior to use.
- Store away from sunlight, at room temperature, with the lid securely tightened.
