

# Lavender Ice For Kids

lavender apothecary blend AromaStix

Headaches are a painful, recurring experience for many people. They may be caused by stress, eyestrain, allergies, sinus congestion, hormone imbalances, and many other causes.\*

Nonsteroidal anti-inflammatory drugs (usually abbreviated as NSAIDs) are a class of drugs that provide analgesic (pain-killing) and antipyretic (fever-reducing) effects, and, in higher doses, anti-inflammatory effects.\*

At least one study has examined a potential link between the usage of non-steroidal anti-inflammatory drugs (NSAIDs) and autism in children (<http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3673819/>). Additionally, some physicians have concerns that ibuprofen and other NSAIDs can cause kidney damage.\*

Reye's syndrome, a rare but potentially life-threatening condition, has been linked to aspirin usage in children and teenagers. Though approved for use in children over the age of 2, aspirin should not be given to adolescents recovering from chickenpox or flu-like symptoms.\*

Most headaches aren't serious, but you should seek prompt medical care if your child's headaches wake your child from sleep, worsen or become more frequent, change your child's personality, follow an injury such as a blow to the head, feature persistent vomiting or visual changes, or are accompanied by fever and neck pain or stiffness.\*

Lavender Ice For Kids is a proprietary blend of Essential Oils that have been shown to assist and help support the body with headaches in children over 3 years of age.\*

## uses

### topical

- For headache, apply Lavender Ice For Kids neat (undiluted) to the temples, forehead, and over the ear, following the hairline and across the back of the neck. Be careful not to get it too close to the eyes. This can be repeated as needed.\*
- Apply Lavender Ice For Kids neat (undiluted) to areas of the body experiencing pain due to tight muscles, strains or sprains, or from blunt trauma such as slamming a finger in a door or stubbing a toe. Gently massage in; repeating as necessary.\*

Product Information Page

## application methods

Topical

## safety group: 2

Generally regarded as safe when properly diluted and used as directed with children over the age of 3 years, and while pregnant starting in the 2<sup>nd</sup> trimester.

## ingredients

*Lavendula angustifolia (Lavender, vera),  
Mentha piperita (Peppermint), Cocos  
Nucifera (Fractionated Cocout)*

## responsible cautions

- Not for use on babies or children under age three; on young children be very cautious to keep away from the eyes.
- Not recommended for those with atrial fibrillation.
- Should not be used in conjunction with homeopathic remedies as it may neutralize the homeopathic effects.
- Peppermint oil residue can remain on the fingers even after washing, and can inadvertently be rubbed into eyes or sensitive areas of skin. Applying Peppermint with your little finger will reduce the likelihood of the oil residue accidentally contacting the eyes.
- Keep out of reach of children and pets.
- If you are pregnant, nursing, or under a doctor's care, consult your healthcare provider prior to use.
- Store away from sunlight, at room temperature, with the lid securely tightened.
