

Lavender Oregano

lavender apothecary blend 10ml

This unique blend has the benefit of the powerful antiseptic properties of Oregano oil with a carvacrol (phenol) content in the mid to upper 70th percentile, and our gentle Lavender, vera from Bulgaria.*

These two together create a phenomenon known in the natural world as "quenching." This means that the severe skin irritation produced by the Oregano is alleviated by the anti-burn properties found in Lavender.*

This blend has been used in medical clinics very successfully in treating antibiotic resistant fungus. It is a powerful nail anti-fungal and can be applied to the nail bed and surrounding tissue two to three times a day as needed.*

Oregano is renowned for its antiseptic properties, and Lavender Oregano blend can be used on insect bites and/or animal bites (around bite) whenever there is possibility of West Nile Virus or other disease carried by insects and animals. It may help prevent infection in shallow cuts and scratches. Apply to the area once or twice and then follow up with Tea Tree Essential Oil.*

uses

topical

- **Massage:** Apply 1 to 2 drops neat (undiluted) to insect bites as needed to relieve itching.*
- **Massage:** Apply 1 to 2 drops neat (undiluted) to shallow cuts and scratches. Apply once or twice and then follow up with Tea Tree Oil.*
- **Nails:** Apply 1 to 2 drops neat (undiluted) to nail beds and surrounding tissue two to three times per day as needed to treat nail fungus.*

topical dilution guidelines
