

Myrrh & Sandalwood

deodorant 2.5oz

Sweating is a natural and essential bodily function that helps regulate temperature and eliminate toxins. While perspiration itself is odorless, the bacteria on our skin break down the sweat, leading to body odor. Many people seek solutions to manage this odor without resorting to harsh chemicals and synthetic fragrances found in conventional deodorants.*

Natural deodorants are formulated with ingredients derived from nature, which work in harmony with your body. Key ingredients like arrowroot powder and various clays absorb moisture and neutralize odor, while essential oils provide pleasant scents and additional antibacterial properties. For instance, ingredients such as myrrh and sandalwood essential oils not only impart a soothing aroma but also possess natural antimicrobial properties that help keep odor-causing bacteria at bay.*

Stay naturally fresh and confident all day with our Myrrh & Sandalwood Deodorant. This unique blend combines the purifying properties of clay with the warm, soothing scents of myrrh and sandalwood, offering effective odor protection and a touch of luxury.*

ingredient highlights

French Green Clay: A powerful ingredient in natural deodorants, known for its exceptional detoxifying and absorbent properties. Mined from ancient volcanic ash deposits in France, this mineral-rich clay effectively absorbs moisture and impurities, helping to keep you dry and fresh throughout the day. Its natural antibacterial qualities combat odor-causing bacteria, while its gentle nature makes it suitable for sensitive skin.*

Myrrh: A valuable addition to natural deodorants, celebrated for its antibacterial and anti-inflammatory properties. Extracted from the resin of the Commiphora tree, myrrh oil helps combat odor-causing bacteria, ensuring long-lasting freshness. Its soothing qualities make it ideal for sensitive skin, reducing irritation and promoting healing. Additionally, myrrh's warm, earthy aroma adds a rich, grounding scent to deodorant formulations, enhancing your daily routine with a touch of ancient wellness.*

Sandalwood: A prized ingredient in natural deodorants, Sandalwood is known for its soothing, anti-inflammatory properties and rich, woody aroma. This essential oil not only imparts a luxurious scent that lingers throughout the day but also offers antibacterial benefits, helping to combat odor-causing bacteria naturally. Its gentle nature makes it suitable for sensitive skin, ensuring a calm and irritation-free experience.*

Arrowroot Powder: A key ingredient in natural deodorants, prized for its ability to absorb moisture and keep you feeling fresh. Derived from the roots of the arrowroot plant, this fine, silky powder helps to naturally combat wetness without clogging pores, allowing your skin to breathe. Its gentle, non-irritating properties make it ideal for sensitive skin, while its effectiveness in maintaining dryness ensures you stay comfortable and confident all day.*

uses

- For external use only. Apply to underarms only; re-apply as needed throughout the day.*
