**citrus sinensis** 10ml

Sweet Orange is one of the most valuable essences to use for digestive complaints including nausea and vomiting, especially of biliary-type; constipation, diarrhea, loss of appetite, and possibly weight loss through its effect on fats.\*

Sweet Orange also has an affinity for the lymphatic system, bringing it into balance, which explains its success as a natural diuretic.\*

# Seasons of Success

The Seasons of Success oil blends assist in overcoming negative emotions and beliefs that limit you from thoroughly enjoying success and happiness.\*

From the first day of Spring, and following the natural cycle of creative energy, each unique blend reflects the energy of a specific month of the year. We start with the Spring Equinox, a time of planting and creating. We then move to the Summer Solstice, a time of nurturing what you have created. From there we enter the Fall Equinox, a time to harvest what you created and nurtured, ending the Seasons of Success line with the Winter Solstice, a time of reflection and review of what you have accomplished and making plans for the future.\*

Even though the blends reflect the months of the year with a natural flow of energy, you do not have to wait until Spring to start your pathway to success; you can start any time. The blends contain the energy that naturally occurs in the month they were created. Start by using the blend created for the current month.\*

You probably know that if you want to change a habit, you need to practice a new way of thinking consistently for at least 28 days for it to stick. With these fantastic blends and the intention that goes with them, you have a partner on your success journey to creating a new you. If used as intended, at the end of twelve months you should be a happier person in every area of your life; family, health, financial, and business relationships. As with anything, you will get out of it what you are willing to put into it; time, dedication, and, most of all, an unwavering commitment to your success.\*

## spring Prosperity • Letting Go Of Fear • Personal Power

Here, we have outflowing energy giving us inspiration and freedom from limitation. This is where we experience the power of discovery and the birth of new projects. This is the period of the Earth's natural cycle when the energy to initiate a start-up, or start over, naturally supports your efforts. Using the three blends coinciding with the three months of Spring, you can align with this natural energy.\*

## summer Seeing The Big Picture • Joy • Stop Self Sabotage

Summer is the definition of joy, fun and the inner child. The good weather gives us optimism and is a great time to "see the bigger picture". Sunlight always helps us feel like we can accomplish anything we set our mind to. Take your inner child out to play and when you return to work you will be happier and more effective than ever. Keep in mind, your business partners will follow the example you give them.\*

## fall Self Aware • Gentle Change • Compassion

We generally associate Fall with harvest time, cooler nights, shorter days, and pumpkin pies. At this point you can reflect on your family, friends, partners, and loved ones who have joined you on this journey. You have worked through the first six emotional blends and increased your potential for emotional healing and success while guiding others to do the same. In Spring, you planted the first seeds of emotional healing and success, and in Summer you nurtured those seeds into a robust and self-empowered circle. It is now time to consider what comes next. It is important to remember that people don't always do what you say, they do what you do. The blends for Fall will help you refine how you move forward to even more significant emotional healing and success for everyone.\*

## winter Gratitude • Hope • High Vibe

The season of Winter is where you gain wisdom from the experience you had in the seasons before, and start anew with that experience embodied. It is about the gathering of energy to begin preparing for a new beginning and a return to the season of Spring to start the cycle afresh. Winter represents letting go of the old and accepting new opportunities with a chance to do things differently come Spring. If you need to end some relationship or project or cleanse and purify your life of any negativity that no longer serves your highest good; now is the time.\*

# Passion

romance ready blend 10ml

Inhaling essential oils stimulates an area of the brain called the Limbic System, which governs moods and emotions. The inhalation can trigger varying emotional and physical responses in people, and essential oils with aphrodisiac properties have the ability to invoke romantic feelings.\*

Passion can be a potent aphrodisiac, particularly for the typically self-restrained or emotionally inhibited individual. Each and every essential oil in this blend has aphrodisiac properties. It can be used as a perfume/cologne, added to a bath, or diluted for use as a body or room spray.\*

## ingredient highlights

- **Sandalwood:** Well known for its meditative and relaxing properties; it slows the breathing and supports deeper concentration and connection, but it also has aphrodisiac properties and is a fragrance most men enjoy. Sandalwood is similar to a man's natural body scent, and though barely perceptible, it sends out a highly effective erotic signal to the opposite sex.\*
- **Rose:** Coveted for centuries by the ancient Egyptians, Greeks, and Romans. The very scent of it can be arousing, and it boosts the libido while invoking romantic feelings that are essential for a successful sex life. Rose can reduce symptoms of sexual dysfunction, erectile dysfunction, frigidity, and general disinterest in sexual activity with partners.\*
- **Jasmine:** Puts people in the mood for love, while also enhancing libido and feelings of sexual desire. It can assist with problems such as premature ejaculation, frigidity, impotence, and various other sexual disorders. When used as perfume and inhaled, Jasmine can awaken innocence, sweetness and purity. Through the limbic region of the brain, Jasmine influences the emotional part of us. No other oil is able to so intensely change our mood.\*
