

Sweet Basil

ocimum basilicum 10ml

Sweet Basil is in many ways a strengthening oil, having a pronounced effect on focus and concentration when inhaled in small amounts throughout the day. It encourages the mind to stay on task rather than wandering or succumbing to distractions, making it an excellent aid for work or study. Just a drop or two is sufficient, as in large amounts Sweet Basil can actually have a stupefying effect.*

Sweet Basil is considered one of the best aromatic nerve tonics for its ability to assist with nervous tension, stress, anxiety, and depression.*

It may also be of use in supporting the body with insomnia and migraine headaches. When added to carrier oil, its antispasmodic and analgesic abilities make Sweet Basil an effective pain reliever and muscle relaxant.*

It may be quite helpful in relieving menstrual cramps, rheumatism, gout, and muscular aches and pains. Seasons of Success

gōDesana

The Seasons of Success oil blends assist in overcoming negative emotions and beliefs that limit you from thoroughly enjoying success and happiness.*

From the first day of Spring, and following the natural cycle of creative energy, each unique blend reflects the energy of a specific month of the year. We start with the Spring Equinox, a time of planting and creating. We then move to the Summer Solstice, a time of nurturing what you have created. From there we enter the Fall Equinox, a time to harvest what you created and nurtured, ending the Seasons of Success line with the Winter Solstice, a time of reflection and review of what you have accomplished and making plans for the future.*

Even though the blends reflect the months of the year with a natural flow of energy, you do not have to wait until Spring to start your pathway to success; you can start any time. The blends contain the energy that naturally occurs in the month they were created. Start by using the blend created for the current month.*

You probably know that if you want to change a habit, you need to practice a new way of thinking consistently for at least 28 days for it to stick. With these fantastic blends and the intention that goes with them, you have a partner on your success journey to creating a new you. If used as intended, at the end of twelve months you should be a happier person in every area of your life; family, health, financial, and business relationships. As with anything, you will get out of it what you are willing to put into it; time, dedication, and, most of all, an unwavering commitment to your success.*

spring Prosperity • Letting Go Of Fear • Personal Power

Here, we have outflowing energy giving us inspiration and freedom from limitation. This is where we experience the power of discovery and the birth of new projects. This is the period of the Earth's natural cycle when the energy to initiate a start-up, or start over, naturally supports your efforts. Using the three blends coinciding with the three months of Spring, you can align with this natural energy.*

summer Seeing The Big Picture • Joy • Stop Self Sabotage

Summer is the definition of joy, fun and the inner child. The good weather gives us optimism and is a great time to "see the bigger picture". Sunlight always helps us feel like we can accomplish anything we set our mind to. Take your inner child out to play and when you return to work you will be happier and more effective than ever. Keep in mind, your business partners will follow the example you give them.*

fall Self Aware • Gentle Change • Compassion

We generally associate Fall with harvest time, cooler nights, shorter days, and pumpkin pies. At this point you can reflect on your family, friends, partners, and loved ones who have joined you on this journey. You have worked through the first six emotional blends and increased your potential for emotional healing and success while guiding others to do the same. In Spring, you planted the first seeds of emotional healing and success, and in Summer you nurtured those seeds into a robust and self-empowered circle. It is now time to consider what comes next. It is important to remember that people don't always do what you say, they do what you do. The blends for Fall will help you refine how you move forward to even more significant emotional healing and success for everyone.*

winter Gratitude • Hope • High Vibe

The season of Winter is where you gain wisdom from the experience you had in the seasons before, and start anew with that experience embodied. It is about the gathering of energy to begin preparing for a new beginning and a return to the season of Spring to start the cycle afresh. Winter represents letting go of the old and accepting new opportunities with a chance to do things differently come Spring. If you need to end some relationship or project or cleanse and purify your life of any negativity that no longer serves your highest good; now is the time.*

Deep Green

grounding blend 10ml

Experimental studies have shown that aromatic compounds (essential oils) produced from trees can lower the production of stress hormones, reduce anxiety, and increase your pain threshold; when inhaled, aromatic plant essential oils increase the antioxidant defense system in the human body.*

Studies have also shown an association between higher amounts of volatile aromatic compounds in the air and improved immune function. Specifically, higher levels of volatile aromatic compounds cause increased production of anti-cancer proteins in the blood as well as higher levels of the frontline immune defenders called natural killer cells (NK). Adults who have higher NK activity tend to have a lower frequency of colds and flu.*

Aromatic trees and plants release volatile aromatic compounds that impact our mood, physical state, and even our immunity in ways we are only just beginning to understand.*

Lavender Ice For Kids

lavender apothecary blend AromaStix

Headaches are a painful, recurring experience for many people. They may be caused by stress, eyestrain, allergies, sinus congestion, hormone imbalances, and many other causes.*

Nonsteroidal anti-inflammatory drugs (usually abbreviated as NSAIDs) are a class of drugs that provide analgesic (pain-killing) and antipyretic (fever-reducing) effects, and, in higher doses, anti-inflammatory effects.*

At least one study has examined a potential link between the usage of non-steroidal anti-inflammatory drugs (NSAIDs) and autism in children (<http://www.ncbi.nlm.nih.gov/pmc/articles/PMC3673819/>). Additionally, some physicians have concerns that ibuprofen and other NSAIDs can cause kidney damage.*
