

Passion

romance ready blend 10ml

Inhaling essential oils stimulates an area of the brain called the Limbic System, which governs moods and emotions. The inhalation can trigger varying emotional and physical responses in people, and essential oils with aphrodisiac properties have the ability to invoke romantic feelings.*

Passion can be a potent aphrodisiac, particularly for the typically self-restrained or emotionally inhibited individual. Each and every essential oil in this blend has aphrodisiac properties. It can be used as a perfume/cologne, added to a bath, or diluted for use as a body or room spray.*

ingredient highlights

- **Sandalwood:** Well known for its meditative and relaxing properties; it slows the breathing and supports deeper concentration and connection, but it also has aphrodisiac properties and is a fragrance most men enjoy. Sandalwood is similar to a man's natural body scent, and though barely perceptible, it sends out a highly effective erotic signal to the opposite sex.*
- **Rose:** Coveted for centuries by the ancient Egyptians, Greeks, and Romans. The very scent of it can be arousing, and it boosts the libido while invoking romantic feelings that are essential for a successful sex life. Rose can reduce symptoms of sexual dysfunction, erectile dysfunction, frigidity, and general disinterest in sexual activity with partners.*
- **Jasmine:** Puts people in the mood for love, while also enhancing libido and feelings of sexual desire. It can assist with problems such as premature ejaculation, frigidity, impotence, and various other sexual disorders. When used as perfume and inhaled, Jasmine can awaken innocence, sweetness and purity. Through the limbic region of the brain, Jasmine influences the emotional part of us. No other oil is able to so intensely change our mood.*

USES

aromatic

- **Misting:** Mix 6 to 8 drops in a 2-ounce amber glass or PET plastic spray bottle of distilled water to carry with you; mist generously whenever you need emotional support and to give yourself permission to give and receive love. Shake well before each use.*

bath

- **Bath:** Mix 10 to 15 drops into ½ cup Pink Himalayan or Dead Sea salts and dissolve into warm bath water. Soak 10 to 20 minutes for best results. Soaking in the Passion bath warms and energizes the Heart Chakra, creating a feeling of being loved and cared for.*

topical

- **Reflexology:** Apply 1 to 3 drops to pulse points. Applying to pulse points on the wrists is a powerful way to affect your heart chakra as the meridian for the heart runs through the wrists.*

topical dilution guidelines

- **Healthy individuals ages 10 and over:** Dilute to 10% (60 drops per 1 ounce of carrier oil). A topical dilution of 25% (150 drops per 1 ounce of carrier oil) may be warranted in cases of severe pain, bad bruising, or serious muscle cramping.*
- **Children 3 to 5 years:** Dilute 3 drops in 10 ml of carrier oil.*
- **Children 5 to 10 years:** Dilute 6 drops in 10 ml of carrier oil.*
- **Pregnancy:** Safe when used as directed starting in the 2nd trimester at 3% dilution(15 drops/1 ounce).*
