

Myrrh & Sandalwood

deodorant 2.5oz

Sweating is a natural and essential bodily function that helps regulate temperature and eliminate toxins. While perspiration itself is odorless, the bacteria on our skin break down the sweat, leading to body odor. Many people seek solutions to manage this odor without resorting to harsh chemicals and synthetic fragrances found in conventional deodorants.*

Natural deodorants are formulated with ingredients derived from nature, which work in harmony with your body. Key ingredients like arrowroot powder and various clays absorb moisture and neutralize odor, while essential oils provide pleasant scents and additional antibacterial properties. For instance, ingredients such as myrrh and sandalwood essential oils not only impart a soothing aroma but also possess natural antimicrobial properties that help keep odor-causing bacteria at bay.*

Stay naturally fresh and confident all day with our Myrrh & Sandalwood Deodorant. This unique blend combines the purifying properties of clay with the warm, soothing scents of myrrh and sandalwood, offering effective odor protection and a touch of luxury.*

ingredient highlights

French Green Clay: A powerful ingredient in natural deodorants, known for its exceptional detoxifying and absorbent properties. Mined from ancient volcanic ash deposits in France, this mineral-rich clay effectively absorbs moisture and impurities, helping to keep you dry and fresh throughout the day. Its natural antibacterial qualities combat odor-causing bacteria, while its gentle nature makes it suitable for sensitive skin.*

Myrrh: A valuable addition to natural deodorants, celebrated for its antibacterial and anti-inflammatory properties. Extracted from the resin of the Commiphora tree, myrrh oil helps combat odor-causing bacteria, ensuring long-lasting freshness. Its soothing qualities make it ideal for sensitive skin, reducing irritation and promoting healing. Additionally, myrrh's warm, earthy aroma adds a rich, grounding scent to deodorant formulations, enhancing your daily routine with a touch of ancient wellness.*

Sandalwood: A prized ingredient in natural deodorants, Sandalwood is known for its soothing, anti-inflammatory properties and rich, woody aroma. This essential oil not only imparts a luxurious scent that lingers throughout the day but also offers antibacterial benefits, helping to combat odor-causing bacteria naturally. Its gentle nature makes it suitable for sensitive skin, ensuring a calm and irritation-free experience.*

Arrowroot Powder: A key ingredient in natural deodorants, prized for its ability to absorb moisture and keep you feeling fresh. Derived from the roots of the arrowroot plant, this fine, silky powder helps to naturally combat wetness without clogging pores, allowing your skin to breathe. Its gentle, non-irritating properties make it ideal for sensitive skin, while its effectiveness in maintaining dryness ensures you stay comfortable and confident all day.*

uses

- For external use only. Apply to underarms only; re-apply as needed throughout the day.*

Fresh

bentonite clay tooth cleansing powder 2oz

Fresh mouth. Clean ingredients. Now you can have healthy, clean teeth and gums without artificial flavorings, artificial sweeteners, fluoride, carrageenan, triclosan, and sodium lauryl sulfate. Fresh Tooth Powder refreshes and cleans with powerful calcium bentonite clay, pink Himalayan salt, pure essential oils, and healing herbs.*

ingredient highlights

Bentonite Clay: Montmorillonite (Bentonite) Clay is a form of volcanic ash that is antibacterial and anti-inflammatory. It is a rich source of trace minerals like calcium, iron, copper, and zinc. When Bentonite Clay gets wet, it expands, changes its electrical charge to a negative charge, and becomes like a big sponge that can absorb toxins. It also has an alkalinizing effect that is beneficial for the health of teeth and gums.*

Pink Himalayan Salt: This all-natural salt is estimated to contain as many as 84 trace minerals that are naturally anti-inflammatory and antibacterial. Brushing with Pink Himalayan Salt can assist in removing bacteria from the teeth and gums, which helps in preventing the buildup of plaque and tartar.*

Peppermint Essential Oil: This tried-and-true remedy has been used all around the world for more than a thousand years. It kills bacteria and fungus, both of which can cause infections in the mouth or lead to the development of cavities. Peppermint oil is especially effective against anaerobic bacteria, which love a low-oxygen environment such as the spaces between teeth or below the gum line where cavities can form and thrive. Studies have shown that peppermint oil is more effective in reducing cavities than many of the active chemical ingredients used in commercial mouthwashes.*

Clove Essential Oil: Used in traditional Indian and Chinese medicine for centuries to relieve tooth pain, modern clinical research has indicated that clove oil can relieve tooth pain and bad breath, as well as help reduce gum disease. Clove oil also has the natural ability to restrict the development of bacteria and can help fight mouth and throat infections.*

Spearmint Essential Oil: An excellent antifungal and breath freshener. Studies show that using spearmint and/or peppermint oil for oral hygiene can help delay the process of gum disease and gingivitis. It is believed by some to have the ability to assist with toothaches as well.*

USES

- Wet toothbrush. Dip in powder and brush as you normally would. Rinse.*

Copaiba

copaifera officinalis 10ml

We all have cannabinoid receptors found in our brain, organs, tissues, glands, and immune cells. Two types of receptors, CB1 and CB2, are present in many tissues although each is linked to a different action within the body.*

Copaiba oil contains high levels of beta-caryophyllene (BCP), a cannabinoid that interacts directly with the CB2 receptors in our body and may be neuroprotective and have cardiovascular and immune benefits. Beta-caryophyllene is also found, in lower levels, in other essential oils like Black Pepper and Melissa.*

Indigenous tribes in South America have used copaiba in traditional medicine for centuries as a topical wound healer, to stop bleeding, and for skin sores and psoriasis. It has been used as a strong antiseptic and expectorant for the respiratory system, and as an anti-inflammatory and antiseptic for the urinary tract. It was an official drug in the *U.S. Pharmacopeia* from 1820 to 1910.*

The high levels of beta-caryophyllene and its uniquely sweet aromatic profile help Copaiba create a relaxing atmosphere when diffused or applied topically. Copaiba oil is used widely in cosmetic products including soaps, lotions, perfumes, and creams. It can be used following exercise or strenuous activity as a comforting cooldown. Combined with a neutral moisturizer, it makes a great addition to your daily skincare regimen to promote a clear, smooth complexion.*

When taken internally Copaiba is a powerful antioxidant supporting the health of our cardiovascular, respiratory, digestive, nervous, and immune systems.*

USES

aromatic

- **Diffusion:** Diffuse 3 drops up to 15 minutes per hour to create a warm, inviting atmosphere and to ease respiratory issues.*

bath

- **Bath:** Combine 1 drop of Copaiba, 1 drop of Peppermint, and 3 drops of Frankincense with ½ cup of Pink Himalayan or Dead Sea bath salts and add to warm water for a relaxing, rejuvenating bath.*

internal

- **Internal:** ASupport the cardiovascular, respiratory, nervous, immune, and digestive systems by adding 1-2 drops to water, juice, or tea, or encapsulating with a few drops of carrier oil.*

topical

- **Massage/Lotion:** Reduce the appearance of blemishes and promote clean, clear skin by adding to carrier oil or facial moisturizer.*
- **Massage:** Dilute one to two drops with a carrier oil, then apply to desired area for a relaxing massage, especially after workouts or strenuous physical activity.*

topical dilution guidelines

- **Healthy individuals ages 10 and over:** Dilute to 10% (60 drops per 1 ounce of carrier oil). A topical dilution of 25% (150 drops per 1 ounce of carrier oil) may be warranted in cases of severe pain, bad bruising, or serious muscle cramping.*

Seasons of Success

The Seasons of Success oil blends assist in overcoming negative emotions and beliefs that limit you from thoroughly enjoying success and happiness.*

From the first day of Spring, and following the natural cycle of creative energy, each unique blend reflects the energy of a specific month of the year. We start with the Spring Equinox, a time of planting and creating. We then move to the Summer Solstice, a time of nurturing what you have created. From there we enter the Fall Equinox, a time to harvest what you created and nurtured, ending the Seasons of Success line with the Winter Solstice, a time of reflection and review of what you have accomplished and making plans for the future.*

Even though the blends reflect the months of the year with a natural flow of energy, you do not have to wait until Spring to start your pathway to success; you can start any time. The blends contain the energy that naturally occurs in the month they were created. Start by using the blend created for the current month.*

You probably know that if you want to change a habit, you need to practice a new way of thinking consistently for at least 28 days for it to stick. With these fantastic blends and the intention that goes with them, you have a partner on your success journey to creating a new you. If used as intended, at the end of twelve months you should be a happier person in every area of your life; family, health, financial, and business relationships. As with anything, you will get out of it what you are willing to put into it; time, dedication, and, most of all, an unwavering commitment to your success.*

spring Prosperity • Letting Go Of Fear • Personal Power

Here, we have outflowing energy giving us inspiration and freedom from limitation. This is where we experience the power of discovery and the birth of new projects. This is the period of the Earth's natural cycle when the energy to initiate a start-up, or start over, naturally supports your efforts. Using the three blends coinciding with the three months of Spring, you can align with this natural energy.*

summer Seeing The Big Picture • Joy • Stop Self Sabotage

Summer is the definition of joy, fun and the inner child. The good weather gives us optimism and is a great time to "see the bigger picture". Sunlight always helps us feel like we can accomplish anything we set our mind to. Take your inner child out to play and when you return to work you will be happier and more effective than ever. Keep in mind, your business partners will follow the example you give them.*

fall Self Aware • Gentle Change • Compassion

We generally associate Fall with harvest time, cooler nights, shorter days, and pumpkin pies. At this point you can reflect on your family, friends, partners, and loved ones who have joined you on this journey. You have worked through the first six emotional blends and increased your potential for emotional healing and success while guiding others to do the same. In Spring, you planted the first seeds of emotional healing and success, and in Summer you nurtured those seeds into a robust and self-empowered circle. It is now time to consider what comes next. It is important to remember that people don't always do what you say, they do what you do. The blends for Fall will help you refine how you move forward to even more significant emotional healing and success for everyone.*

winter Gratitude • Hope • High Vibe

The season of Winter is where you gain wisdom from the experience you had in the seasons before, and start anew with that experience embodied. It is about the gathering of energy to begin preparing for a new beginning and a return to the season of Spring to start the cycle afresh. Winter represents letting go of the old and accepting new opportunities with a chance to do things differently come Spring. If you need to end some relationship or project or cleanse and purify your life of any negativity that no longer serves your highest good; now is the time.*

Stop Self Sabotage

AUGUST: BLEND 6 15ml

This blend can show you how and where you keep making the same mistakes repeatedly, moving from one disaster to the next. Some people have refined self-sabotage to an art form. Many practitioners of self-sabotage tend to blame others for the disasters in their lives, and therefore, never learn from their mistakes. When confronted with a challenging situation, ask yourself if you are fooling yourself about who created the problem.*

With the Stop Self-Sabotage blend, we know we must take a step back, look at a situation objectively, and instead of blaming others for our circumstances, we need to learn from our mistakes and move forward. This blend dissolves remorse and guilt and restores optimism. It helps you make fundamental life changes.*

USES

topical

- **Wrists:** Apply 2 to 4 drops to wrists and inhale as you repeat the following intention each day for 28 days:*

Stop Self Sabotage Intention

Looking back in hindsight, I see an instance where I may have self-sabotaged. I will not blame others, and I release any guilt or remorse I caused myself and others by not accepting blame for my mistakes. By accepting this and making the necessary changes, I am in integrity with myself and others.

- **Feet:** Apply 2 to 4 drops on bottoms of big toes on each foot. Because the soles of the feet are commonly less sensitive than other areas of the body due to their thicker skin, essential oils can generally be applied to the feet without irritation, and are quickly absorbed into the body.*
- **Perfume/Cologne:** For a safe, healthier alternative to synthetic fragrances, apply 2 to 4 drops on pulse points behind the ears, at the base of the throat, on the wrists, inside the elbows, and behind the knees.*
- **Massage/Lotion:** Add a few drops to unscented/perfume-free lotions, creams, and massage oils. Patch-test before applying to large areas.*

aromatic

- **Diffuser:** Diffuse 10 to 15 drops in a cool mist essential oil diffuser for 5 to 8 minutes per hour as desired, throughout the day.*
- **Body Spray:** Mix 15 to 20 drops into 4 ounces of distilled water in a cobalt blue glass or PET plastic spray bottle. Shake vigorously and mist around yourself to ground your energy, to inspire self-acceptance and courage for change, or before making major decisions to calm your emotions and to give clarity to your mind.*
- **Room Spray:** Mix 15 to 20 drops into 4 ounces of distilled water in a cobalt blue glass or PET plastic spray bottle. Shake vigorously and spray into the environment as desired.*

bath

- **Bath:** Add 5 to 10 drops to ½ to 1 cup of Pink Himalayan or Dead Sea bath salts, and add to warm bath water. Soak 10 to 20 minutes, allowing yourself to be renewed with courage and self-acceptance.*

Protector

environmental blend 10ml

Protector was formulated as a powerful antiseptic and disinfectant; a must have essential oil blend for daily use. It can be used in a multitude of ways to guard against the spread of disease, both at home and away.*

Protector is an excellent weapon against environmental mold and fungus, and can stop them in their tracks. It can be especially helpful following water damage to home, office, or other environments.*

A superb energetic cleanser, Protector is great to use in a mister or diffuser to clear and cleanse stagnant or negative energy. The beautiful thing about Protector is that it performs all of the powerful disinfecting functions while at the same time being non-toxic, gently mood elevating, and adding a fresh and clean aroma to the environment.*

ingredient highlights

Sage: Contains camphor and camphene, giving it an antifungal property. Sage is capable of inhibiting fungal infections both internally and externally.*

Eucalyptus Globulus: Has been shown to be a powerful germ killer and is effective in eliminating certain strains of staph. It's an excellent essential oil to use in the dishwasher to kill germs that wouldn't otherwise be eliminated.*

Lemongrass: Is a natural air freshener and deodorizer. Its high citral and geraniol content also make it an excellent repellent for household pests like ants.*

uses

aromatic & household

- According to Jean Valnet, M.D., the essential oils used in Protector, when diffused into the air, can kill 70% of airborne staph bacteria. To clear mold and bacteria from a room, diffuse 15 drops in 15 minute intervals throughout the day.*
- Mix 15 to 20 drops into 4 ounces of distilled water in an amber glass or PET plastic spray bottle. Shake vigorously and mist into the environment to cleanse the surrounding air.*
- Use the misting spray on surfaces where mold or bacteria are growing. Keep a misting bottle in every room of your home for a quick clean and disinfectant wipe.*
- Add 30 drops to washing machine or dishwasher to prevent the spread of germs.*
- Add 5 drops to soap dispensers to prevent the spread of germs. Add 5 drops to water when hand-washing dishes.
