

Rose & Vetiver

deodorant 2.5oz

Sweating is a natural and essential bodily function that helps regulate temperature and eliminate toxins. While perspiration itself is odorless, the bacteria on our skin break down the sweat, leading to body odor. Many people seek solutions to manage this odor without resorting to harsh chemicals and synthetic fragrances found in conventional deodorants.*

Natural deodorants are formulated with ingredients derived from nature, which work in harmony with your body. Key ingredients like arrowroot powder and various clays absorb moisture and neutralize odor, while essential oils provide pleasant scents and additional antibacterial properties. For instance, ingredients such as myrrh and sandalwood essential oils not only impart a soothing aroma but also possess natural antimicrobial properties that help keep odor-causing bacteria at bay.*

Stay naturally fresh and confident all day with our Rose & Vetiver Deodorant. This unique blend combines the purifying properties of clay with the delicate aroma of rose and the earthy, grounding scent of vetiver, offering effective odor protection and a touch of luxury.*

ingredient highlights

Rhassoul Clay: A mineral-rich clay sourced from the Atlas Mountains of Morocco, rhassoul clay is a powerhouse ingredient in natural deodorants. Known for its exceptional ability to absorb impurities and excess oils, rhassoul clay helps keep your underarms dry and fresh throughout the day. Its gentle exfoliating properties also aid in removing dead skin cells and detoxifying the skin, reducing the risk of irritation and odor-causing bacteria. Incorporating rhassoul clay into natural deodorant formulations provides a luxurious, effective, and skin-friendly alternative to traditional antiperspirants, ensuring you stay confidently fresh with the benefits of nature's best.*

Rose: A luxurious and effective addition to natural deodorants, offering both aromatic and skin-nourishing benefits, rose oil is known for its exquisite fragrance, and provides a gentle and pleasant scent that helps mask body odor throughout the day. Beyond its delightful aroma, rose essential oil is celebrated for its antibacterial properties, which help inhibit the growth of odor-causing bacteria. Additionally, its anti-inflammatory and moisturizing qualities make it an excellent choice for soothing and protecting the delicate skin of the underarms, reducing irritation and maintaining a soft, smooth feel.*

Vetiver: A standout ingredient in natural deodorants, offering a deep, earthy aroma that naturally combats body odor, vetiver is renowned for its antibacterial properties. It helps to neutralize odor-causing bacteria, ensuring long-lasting freshness. Additionally, its grounding scent provides a calming and balancing effect, making it an excellent choice for daily use. Vetiver's skin-soothing and anti-inflammatory qualities also aid in reducing irritation, making it ideal for sensitive underarm skin.*

Arrowroot Powder: A key ingredient in natural deodorants, prized for its ability to absorb moisture and keep you feeling fresh. Derived from the roots of the arrowroot plant, this fine, silky powder helps to naturally combat wetness without clogging pores, allowing your skin to breathe. Its gentle, non-irritating properties make it ideal for sensitive skin, while its effectiveness in maintaining dryness ensures you stay comfortable and confident all day.*

Fresh

bentonite clay tooth cleansing powder 2oz

Fresh mouth. Clean ingredients. Now you can have healthy, clean teeth and gums without artificial flavorings, artificial sweeteners, fluoride, carrageenan, triclosan, and sodium lauryl sulfate. Fresh Tooth Powder refreshes and cleans with powerful calcium bentonite clay, pink Himalayan salt, pure essential oils, and healing herbs.*

ingredient highlights

Bentonite Clay: Montmorillonite (Bentonite) Clay is a form of volcanic ash that is antibacterial and anti-inflammatory. It is a rich source of trace minerals like calcium, iron, copper, and zinc. When Bentonite Clay gets wet, it expands, changes its electrical charge to a negative charge, and becomes like a big sponge that can absorb toxins. It also has an alkalinizing effect that is beneficial for the health of teeth and gums.*

Pink Himalayan Salt: This all-natural salt is estimated to contain as many as 84 trace minerals that are naturally anti-inflammatory and antibacterial. Brushing with Pink Himalayan Salt can assist in removing bacteria from the teeth and gums, which helps in preventing the buildup of plaque and tartar.*

Peppermint Essential Oil: This tried-and-true remedy has been used all around the world for more than a thousand years. It kills bacteria and fungus, both of which can cause infections in the mouth or lead to the development of cavities. Peppermint oil is especially effective against anaerobic bacteria, which love a low-oxygen environment such as the spaces between teeth or below the gum line where cavities can form and thrive. Studies have shown that peppermint oil is more effective in reducing cavities than many of the active chemical ingredients used in commercial mouthwashes.*

Clove Essential Oil: Used in traditional Indian and Chinese medicine for centuries to relieve tooth pain, modern clinical research has indicated that clove oil can relieve tooth pain and bad breath, as well as help reduce gum disease. Clove oil also has the natural ability to restrict the development of bacteria and can help fight mouth and throat infections.*

Spearmint Essential Oil: An excellent antifungal and breath freshener. Studies show that using spearmint and/or peppermint oil for oral hygiene can help delay the process of gum disease and gingivitis. It is believed by some to have the ability to assist with toothaches as well.*

Seasons of Success

gōDesana

The Seasons of Success oil blends assist in overcoming negative emotions and beliefs that limit you from thoroughly enjoying success and happiness.*

From the first day of Spring, and following the natural cycle of creative energy, each unique blend reflects the energy of a specific month of the year. We start with the Spring Equinox, a time of planting and creating. We then move to the Summer Solstice, a time of nurturing what you have created. From there we enter the Fall Equinox, a time to harvest what you created and nurtured, ending the Seasons of Success line with the Winter Solstice, a time of reflection and review of what you have accomplished and making plans for the future.*

Even though the blends reflect the months of the year with a natural flow of energy, you do not have to wait until Spring to start your pathway to success; you can start any time. The blends contain the energy that naturally occurs in the month they were created. Start by using the blend created for the current month.*

You probably know that if you want to change a habit, you need to practice a new way of thinking consistently for at least 28 days for it to stick. With these fantastic blends and the intention that goes with them, you have a partner on your success journey to creating a new you. If used as intended, at the end of twelve months you should be a happier person in every area of your life; family, health, financial, and business relationships. As with anything, you will get out of it what you are willing to put into it; time, dedication, and, most of all, an unwavering commitment to your success.*

spring Prosperity • Letting Go Of Fear • Personal Power

Here, we have outflowing energy giving us inspiration and freedom from limitation. This is where we experience the power of discovery and the birth of new projects. This is the period of the Earth's natural cycle when the energy to initiate a start-up, or start over, naturally supports your efforts. Using the three blends coinciding with the three months of Spring, you can align with this natural energy.*

summer Seeing The Big Picture • Joy • Stop Self Sabotage

Summer is the definition of joy, fun and the inner child. The good weather gives us optimism and is a great time to "see the bigger picture". Sunlight always helps us feel like we can accomplish anything we set our mind to. Take your inner child out to play and when you return to work you will be happier and more effective than ever. Keep in mind, your business partners will follow the example you give them.*

fall Self Aware • Gentle Change • Compassion

We generally associate Fall with harvest time, cooler nights, shorter days, and pumpkin pies. At this point you can reflect on your family, friends, partners, and loved ones who have joined you on this journey. You have worked through the first six emotional blends and increased your potential for emotional healing and success while guiding others to do the same. In Spring, you planted the first seeds of emotional healing and success, and in Summer you nurtured those seeds into a robust and self-empowered circle. It is now time to consider what comes next. It is important to remember that people don't always do what you say, they do what you do. The blends for Fall will help you refine how you move forward to even more significant emotional healing and success for everyone.*

winter Gratitude • Hope • High Vibe

The season of Winter is where you gain wisdom from the experience you had in the seasons before, and start anew with that experience embodied. It is about the gathering of energy to begin preparing for a new beginning and a return to the season of Spring to start the cycle afresh. Winter represents letting go of the old and accepting new opportunities with a chance to do things differently come Spring. If you need to end some relationship or project or cleanse and purify your life of any negativity that no longer serves your highest good; now is the time.*
